Subject: RE: Area 4 Work Plan Comments

Jeff,

I think these are fine. My only comment is that I think since it's not clear they are going to send a reconnaissance plan they need to have this workplan include this information as described in your general comment. The only other option would be to send a separate reconnaissance plan. I would prefer to have them revise this work plan to include the recon plan and all of the specific information when they revise the document. Since they are going to conduct recon this field season it makes sense they revise the work plan with the recon plan included to save time.

You can send me a final version of the comments in both Word and a PDF and I'll handle them from there.

Jim
